

# **Basel Abbas Mahmoud Abbasi**

## **Backend .NET Developer**

Amman, Jordan | +962 791121020 | [baselabbasi863@gmail.com](mailto:baselabbasi863@gmail.com) |

LinkedIn : [www.linkedin.com/in/basel-abbasi](https://www.linkedin.com/in/basel-abbasi)

### **SUMMARY**

---

Backend Developer skilled in ASP.NET Core, C#, Web APIs, SQL Server, and Entity Framework Core. Experienced in building modular and scalable systems following Clean Architecture, SOLID principles, and best backend practices. Hands-on with authentication (JWT, Identity), background jobs, middleware, logging, and API optimization. Passionate about backend engineering and delivering maintainable solutions.

### **Experience**

---

**Trainee Backend .NET Developer** **Sep, 2025 – Present**  
**(T2 Company)**

- Developing ASP.NET Core Web APIs using Clean Architecture, layered services.
- Working with EF Core, LINQ, and SQL Server (queries, relationships, schema design).
- Implementing JWT Authentication, Identity roles, and secure authorization flows.
- Using Serilog for structured logging and system monitoring.
- Implementing background jobs with Hangfire and Quartz.NET.
- Applying SOLID principles, dependency injection, and clean code practices.

**Trainee OutSystems Software Engineering** **Oct, 2024 - Feb, 2025**  
**(4Matex Information Technology)**

- Built scalable apps using the OutSystems low-code platform with focus on performance
- Integrated third-party APIs and optimized workflows
- Performed testing and debugging to ensure app quality
- Documented processes and supported team training

**Trainee Frontend Developer** **Nov, 2021 – Feb, 2022**  
**(Center for Entrepreneurship and Innovation, Yarmouk University)**

- Created responsive interfaces using HTML, CSS, JavaScript.
- Worked with backend basics and Git

### **Education**

---

**BSc, Computer Engineering** **Jan, 2025**  
Yarmouk University, Irbid, Jordan

## Skills

---

- **Backend:** ASP.NET Core, Web API, C#, OOP, Clean Architecture, Authentication & Authorization (JWT, Identity), Serilog, Hangfire, Quartz.NET, Unit Testing, Health Check.
- **Database Management:** SQL Server, EF Core, LINQ, Elasticsearch, AutoMapper.
- **Tools:** OutSystems, Make Automation, Elasticsearch, Git, GitHub, Azure Devops, Postman.
- **Soft Skills:** Creative thinking, problem-solving, teamwork, excellent communication (written and verbal), time management, leadership.

## Projects

---

### **Sports Injury Scheduling Application (Spring Boot MVC with Elasticsearch)**

Built using Spring Boot MVC with REST APIs, Elasticsearch integration for fast indexing and search, and MySQL for structured data storage. Implemented appointment logic, filtering, and data retrieval with optimized queries and layered architecture.

## Certificates

---

- **Introduction to Front-end Development** – Meta (Sep 2024).
- **Programming with JavaScript** – Meta (Sep 2024).
- **Version Control** – Meta (Sep 2024).
- **British Council Certificate (B2 English Level)** – British Council (Aug 2024).
- **Arduino Training Workshop** – Computergy Team, Yarmouk University (May 2023).
- **Internet of Things Course** – Jordanian Engineers Association (Dec 2022).
